• Flu vaccinations can be billed by Medicare Part B, Wellmark Blue Cross/Blue Shield, and Aetna if you bring your card. Those with other private insurances must pay for the vaccine and a receipt will be given to you for insurance reimbursement.

• The Vaccine for Children (VFC) program provides influenza vaccine at no cost for children 6 months through 18 years of age for those who qualify. Eligible children are those who are uninsured, underinsured, Medicaid recipients or children who are Native or Alaskan American. Donations are accepted to help defray expenses. For those who are underinsured, please bring your insurance card.

Questions about your Medicare options?

Your Medicare choices can seem overwhelming.

I didn't go to college - Thank God. Common sense and hard work will go a long way. My question to the real smart educated people - How will we be able to go to all electric vehicles? I watch a busy convenience store and in 1 hour 30 - 40 vehicles pull in to get gas. They are there less than 10 minutes. It takes at least 1 hour plus to get a full charge on an electric vehicle, where will all these vehicles park and what will it cost? Electricity is not free. How much time will be wasted waiting for the charge? I think sun and battery energy is a great thing, but haste will make waste. Slow down and let's use the common sense and brains the good Lord gave us. As you all know, the day you are born every day after you are one day closer to meeting your maker (God). Well Friday, my Mother-in-law, Pat Backhaus went to heaven to be with her new family and be with all those she loved on earth. Anyone that knew Pat, knew she never had an enemy in the world. She was loved by all and will be remembered by all. Rest in Peace till we meet again. Love ya
